

<i>TIME</i>	<i>ACTIVITY</i>	<i>LOCATION</i>
11:00 – 12:00	 <i>Mushrooms 101</i> Bob Mackler , past MSSF president and Oakland Museum of California docent, presents a slide show exploring life cycles and fascinating adaptations for mushroom newcomers.	Lecture Hall
11:30 – 12:30	 <i>Cooking Demonstration</i>	Outdoor Entryway
12:00 – 4:00	 <i>A Day of FUNgi Family Activities</i> Mushroom dyeing, jewelry making, coloring, and more.	Learning Center
12:30 – 1:30	 <i>A Fresh Start for Mushroom Beginners</i> Bill Freedman is a distinguished member of the MSSF and an expert on toxic mushrooms. His lecture will include some of the latest mycological discoveries.	Lecture Hall
1:00 – 2:00	 <i>Mushrooms, Toadstools, and Beyond</i> Else Vellinga , a mycologist from UC Berkeley, presents this slide show of colorful mushrooms from California and beyond and tells fascinating stories about their ecology and appearances.	James Moore Theatre
1:30 – 2:30	 <i>Cooking Demonstration</i>	Outdoor Entryway
2:00 – 3:00	 <i>Steward's Guide to the Care and Feeding of the Savage Mushroom</i> Ken Litchfield , mushroom-cultivation instructor at Merritt Community College, will share simple and easy techniques of mushroom care you can do in your kitchen and home garden for wild-land enhancement.	Lecture Hall
2:30 – 3:30	 <i>Fungi of the Sierra: Choice, Beautiful, and Unique</i> Daniel Nicholson , naturalist and amateur mycologist, has spent the last decade documenting mid-elevation fungi. He will share his photos of the fun, common, and interesting mushroom discoveries around his home in the Sierra foothills.	James Moore Theatre
3:00 – 4:00	 <i>Cooking Demonstration</i>	Outdoor Entryway
3:30 – 4:30	 <i>Mushrooming for Beginners – the Benefits of MSSF Membership</i> J.R. Blair , president of MSSF, earned his Master's degree from San Francisco State studying mushrooms and has taught biology there ever since. A brief primer on what membership in the Mycological Society of San Francisco has to offer including information on meetings, forays, culinary events, communications, and more.	Lecture Hall
4:00 – 5:30	 <i>Solutions from the Underground: How Mushrooms Can Help Save the World</i> Paul Stamets , author of the book <i>Mycelium Running</i> , will discuss the evolution of mushrooms in ecosystems and how fungi can help heal environments.	James Moore Theatre

TIME	ACTIVITY	LOCATION
12:00 – 4:00	 <i>A Day of FUNgi Family Activities</i> Mushroom dyeing, jewelry making, coloring, and more.	Learning Center
12:30 – 1:30	 <i>Forest to Table: a Discussion of Eating Wild Mushrooms</i> David Campbell , former president of the MSSF and “fungimental mycophagy” expert, will speak on foraging for wild edible mushrooms.	Lecture Hall
12:30 – 1:30	 <i>Cooking Demonstration</i>	Outdoor Entryway
1:30 – 2:30	 <i>Fungi of the Sierra: Choice, Beautiful, and Unique</i> Daniel Nicholson , naturalist and amateur mycologist, has spent the last decade documenting mid-elevation fungi. He will share his photo collection of the fun, common, and interesting discoveries of mushroom hunting around his home in the Sierra foothills.	James Moore Theatre
2:00 – 3:00	 <i>Adventures in Wild Mushroom Cultivation</i> Ken Litchfield , mushroom-cultivation instructor at Merritt Community College, will highlight the fun aspects of edible fungi and cultivation education opportunities.	Lecture Hall
2:30 – 3:30	 <i>Cooking Demonstration</i>	Outdoor Entryway
3:00 – 4:30	 <i>Magic Mushrooms: Psilocybes and Amanitas</i> Paul Stamets , an expert on medicinal and psychoactive mushrooms and author of several books on psilocybin mushrooms, will explore the realm of mind-altering fungi.	James Moore Theatre
3:30 – 4:30	 <i>Mushrooms, Toadstools, and Beyond</i> Else Vellinga , a mycologist from UC Berkeley, presents a slide show of colorful mushrooms from California and beyond and tells fascinating stories about their ecology and appearances.	Lecture Hall
